

## Mission Statement

The gift of childhood comes only once in a person's life. It is a developmental stage full of wonder, amazement, curiosity, growth and learning. At All Saints' Episcopal Day School, we want our students to experience childhood in all its fullest, within an environment that is safe, instructive and enjoyable. We are committed to providing quality early childhood education centered on scholastic excellence and moral development. Our student-centered approach addresses the cognitive, interpersonal, kinesthetic, artistic, musical, and spiritual needs of children, fostering within them both independence and cooperation with others. Our school, faculty and staff look forward to being a part of your child's life.

## Overview

A supportive preschool learning environment promotes the development of critical thinking skills, fosters awareness of diversity and multiculturalism, and supports learning. The child's development in each domain (language, social, physical, cognitive, and social-emotional) is sustained, extended, and enhanced primarily through activities that promote purposeful play. Our three and four year old programs therefore, accommodate planned and unplanned, as well as structured and unstructured experiences in a warm, nurturing and educational environment. Daily Routines include well program defined learning centers that

encourage integration of multiple content areas. These routines encourage the development of self-confidence by offering children multiple opportunities to make choices, encourage curiosity, problem-solving, and the generation of ideas and fantasy through exploration. All routines are implemented for flexibility to meet individual needs and provide opportunities for the success of all children.

## Highlights

- Licensed teachers
- Flexible programming
- Teacher and child directed activities
- Hands-on curriculum learning
